European Values Series
Open Press Tilburg University

Author’s guidelines

European Values Series is a leading platform for the comparative study of values, norms, beliefs, attitudes, and opinions. It primarily publishes values research that seeks to uncover patterns and trends in important life domains, such as politics, religion and morale, family and gender, migration, work, welfare etc., and that adopts a comparative perspective on values such as cross-national comparisons, a longitudinal perspective, comparisons across social groups.

The Series is grounded in work from the social sciences, although contributions from other disciplines such as philosophy and history are welcome as well. In this way, the Series hopes to contribute to the academic and public debate on European values. To facilitate this, the European Values Series is published open access by Open Press Tilburg University.

The European Values Series welcomes edited volumes, monographies, and short books on specific thematic topics.

To prepare your manuscript, please follow the guidelines below.
