MASTER QUESTIONNAIRE

[FINAL – FOR PUBLICATION]

NON-RESPONSES

LEGEND

DK = Don't know

NA = Prefer not to answer

Not applicable = question is skipped due to routing

CAPI

DK and NA are always spontaneous, therefore they do not appear on the showcards and should not be read out to the interviewee.

Options do appear on screen of interviewer immediately, together with message:
DO NOT READ OUT LOUD.

'Not applicable' should be coded automatically by the system or manually by the interviewer when the question is not asked due to routing.

CAWI

DK and NA are shown only once the respondent has tried to skip the question, together with this message: "We noticed that you did not answer this question. We would be very grateful if you answered to the best of your knowledge, even if you are not completely sure. Otherwise, select 'Don't know' or 'Prefer not to answer' to continue the questionnaire."

'Not applicable' is coded automatically by the system when question is not asked due to routing.

In case a text field answer is selected (e.g., other, namely...), but the text field is left empty, this message appears: "please fill in the text field".

PAPI

DK and NA are displayed separated by a line and with different colour (grey).

'Not applicable' is not displayed (respondent skips question when not *en route*).

Error messages are not displayed (data is entered in entry form as answered by the respondent, inconsistent cases are flagged afterwards).
